

A Lenten Thought for Principals

Art galleries capture His life in paintings.
Libraries are lined with books on His thoughts.
Hospitals and schools are dedicated to His
memory.

He is the focus of controversy
The rallying point of unity, the object of true love,
The subject of debate,
a basis of hope and the goal of lives.

No one interested in the meaning of life and its
ultimate questions can ignore him.

He towers above the giants of history.
To some He is an uneasy feeling in times of
silence.

To others He is a sunrise of hope in a night of
darkness.

To all, He is a challenge.
